Carrier Objective

Aspiring to utilize my expertise in Machine Learning and software development to drive business growth and technological innovation. Committed to applying data-driven insights to real-world challenges, I seek to contribute to a dynamic team where I can continuously refine my skills and develop impactful, cutting-edge solutions.

Education

New Horizon College of Engineering

Bachelor of Engineering in Artificial Intelligence and Machine Learning (CGPA: 8.55/ 10.00)

Oct 2021-Present

Bangalore , Karnataka

Primus Public School

2nd PUC, Percentage:87%

June 2019-June 2021

Bangalore , Karnataka

St. Peter's School

ICSE 10th, Percentage:80.5

June 2018-June 2019

Bangalore , Karnataka

Internship

HalloTech Solutions

Full Stack Developer Intern

Sept 2023 – Dec 2023

- Developed the Login and Sign-Up pages for a website using React, focusing on creating a user-friendly interface with efficient form validation and seamless user experience.
- Developed CaseGPT, a ChatGPT clone designed to troubleshoot website issues and offer solutions for problem-solving.

Projects

PERFORMING REGRESSION ANALYSIS OF COMPANY PROFIT

- Developed a model to forecast company profits through comprehensive dataset analysis.
- Cleaned the data by removing null values, split it into training and testing sets, and trained the model for profit prediction.
- Assessed model performance by visualizing predicted values against actual values.

CALORIES BURNT PREDICTION

- Developed a predictive model for estimating caloric expenditure for specific exercises, incorporating cleaned and concatenated datasets.
- Evaluated the model using XGBoost Regressor, Linear Regression, Decision Tree Regressor, and Random Forest Regressor.
- Achieved superior predictive accuracy with the XGBoost Regressor.

Technical Skills

Languages: Python, Java, React, JavaScript, HTML, XML, MongoDB.

Technical Skills: Machine Learning, Data Science, Web Development

Soft Skills: Teamwork, Time Management, Adaptability, Presentation Skills

Certifications

1. Network Addressing and Basic Troubleshooting
2. Enterprise Design Thinking Practitioner
3. JavaScript Essentials 1
4. Complete Web Development Bootcamp

Cisco

IBM

Cisco

Udemy

Extracurricular

EMCEE 11th July, 2023

- Hosted a seminar focused on higher education opportunities, facilitating discussions between guest speaker and an audience of over 70 students.

EMCEE 14th July, 2023

- Hosted a seminar on higher education opportunities, facilitating discussions between the guest speaker and an audience of over 150 students..

EMCEE 15th August, 2023

- Hosted the 15th August Independence Day celebration, leading the program, introducing performances, and engaging with a diverse audience to honor the occasion.

Hobby

- Cycling
- Watching Football
- Playing Basketball
- Reading
- Writing Short Stories
